Had A 7 Per Cent Decrease

Chicago, Ill.- Five thousand Americans won reprieves from death last year. These lucky Americans would have died violently, along with 90,000 of their fellow citizens, if accidental deaths had not dropped 5 per cent from the 1953 rate and the lowest rate on record.

The greatest reductions were in industry, which achieved a 7 per cent reduction in fatal accidents, and in motor vehicle deaths, which dropped 6 per cent. Home deaths were down 5 per cent and public (non-motor vehicle) deaths showed a 3 per cent reduction, according to the National Safety Council.

NEEDED PROOF

Owensboro, Ky.- When the absent owner of a parked car returned, Police Lieut. Owen Bradley charged him with "slugging the meter." The proof — the meter's coin box didn't contain a cent—only four slugs.

Homemakers Items

Hot, humid weather is "mildew weather," says VPI home management specialist.

The type of molds that cause mildew thrive in damp, warm, poorly lighted places, growing on anything from which they can get food. These materials include cotton, wool, linen, silk, leather, paper, or wood, among others.

The molds will decay wood and discolor fabrics and leather. If left alone, they will eat into fabrics, rotting and ruining them.

To help prevent mildew, be sure clothes are clean and dry before being put into storage for the summer, and be sure they are stored in a clean, dry place.

Although a basement may seem dry, it is a hazardous place for summer storage because condensation in muggy weather causes dampness. Automatic dehumidifying devices are being used today, especially in basements, for this season.

Electric fans, moisture - absorbing chemicals and fans, or an electric light bulb in a small closet will help despel moisture and prevent mildew.

Cut a loaf of French bread into one-inch slices and brush with melted garlic butter. Melt sharp cheese with tomato juice and minced onion, stirring constantly until mixture is thoroughly combined. Then spread on garlic bread, arrange on baking sheet and bake in the oven for 15 minutes at a moderate temperature. Serve hot.

A CONCRETE RECORD

Sault Ste. Marie, Mich.- What is thought to be a world record for pouring concrete was established here recently when 6,250 cubic yards were poured in a 24-hour period in the construction of a $1,000,000-bridge, being built between Michigan's two peninsulas.

MORE REPORTS ON QUAIL PROSPECTS

Edwin Gulick, of Calverton,, and Bud Bean, of Catlett, both in Fauquier County, report to the Commission of Game and Inland Fisheries that in their immediate area the prospect of a crop of quail is as good or better than it has been for several years.

According to C. F. Phelps, chief of the Game Division of the Commission, similar reports are coming in from other areas of the state. For the past several years drought has adversely affected the nesting and survival of bobwhite.

38 MURDERS IN 6 MONTHS

Baltimore, Md.- Thirty - eight persons were murdered in the city of Baltimore in the first six months of 1954. Police have made arrests in all but three of the cases. Thirty-three of the slaying victims were Negroes.

Mines of World War II still menace ships.

HOMES FOR VETS

The number of properties for which the Veterans Administration received appraisal requests dropped nearly 25 per cent in June, VA announced.

VA received requests for 52,424 appraisals in June, 16,356 less than in May, 1953 but above the number as were received in April and July of last year.

Appraisal requests for homes showed only a slight rise in June. VA received requests for 37,76[illegible] less than three per cent figure for June, the highest month that the monthly total topped 50,000.

Business expansion is reported on firm footing.

Eden says recent rise in farmland cost 2,000,000 persons.
